Bojoko helps you find pay by mobile casinos

Many casinos offer at least some way to top up your player account on your phone. On Bojoko, we list all casinos offering mobile deposits. Our listings also differentiate between deposit methods.

If you are in a hurry, you can return to the list of pay by phone casinos and use the quick filters to find sites with a specific mobile banking method. If you have time, you can learn all about pay by mobile casinos.

We here on Bojoko aim to provide as accurate and updated information about casinos as possible. Our experts independently review casinos and we publish reviews from our community users. Our goal is to show you what the actual gambling experience is like.

One of the key features in our expert testing is verifying withdrawals. They play with real money to see how the withdrawal process works on each casino, and to make sure that the casino actually pays out.

How does mobile billing casino work in the UK?

Depositing money in a mobile billing casino is easy. Follow these steps to make a casino deposit with your mobile phone bill:

Select Payforit or Boku on the casino deposits page. Choose your deposit amount. Provide your phone number. You'll get a text message with the confirmation code. Enter this code in the

casino. You'll get a confirmation message after a successful deposit.

With traditional casino payment options you need a bank account or card details. Most of the new casinos offer mobile billing. In a pay by mobile casino all you need is your phone number.

Depending on your subscription mode, you can pay the mobile phone deposit with:

Your next phone bill, or

Your existing pay as you go credit

Pay by phone bill

In a pay by phone bill casino you can make a deposit and start playing without the need to settle your payment on the spot - play now, pay later. If you make a casino deposit by phone bill, the charges are included in your next phone bill.

This approach doesn't exactly follow the spirit of the latest UK Gambling Commission guidelines.

The UKGC wants to stop people from gambling with money they don't have. Starting April 2024, you can no longer use a credit card to make deposits at UK casinos.

Although payment methods that add the deposit sum to your next phone bill aren't explicitly banned at the moment, the tide seems to be turning. Many casinos have already removed them from their deposit selection.

pay with phone credit

If you have a prepaid phone number, you can pay in mobile casino with phone credit.

Casino pay by phone credit is a secure way to deposit, because the prepaid SIM cards are anonymous.

By limiting your deposits to what you have on your phone credit, you'll always be on top of your casino spending.

Pay With mobile top up

You can use your mobile to top up your casino account. If you have mobile phone with a monthly subscription, your deposits will show on your next phone bill.

Pay by sms text message

Direct billing methods all confirm your UK mobile casino deposit with an SMS i.e. a text message.

Pay by SMS in mobile casino isn't a separate banking method, but one step in the mobile payment process. When you're making a pay by SMS casino deposit, you need to use the above-mentioned payment systems.

How to find pay by phone casinos

1. Find a pay by phone casino from our list We have a massive list of pay by phone casinos here on Bojoko. You can use ready-made filters or add your own to find the perfect casino for you that supports Payforit, Boku or Apple Pay.
2. Read the expert and user reviews After you have chosen a pay by phone casino, you can read what other users and our experts have written about it. Their personal experiences can help you see what that casino is really like.
3. Go to the casino Each of our reviews has a big green 'PLAY HERE' button that takes you straight to the casino. When you get there, just register an account by filling the required information.
4. Deposit by phone Go to deposit and choose Payforit, Boku or Apple Pay. Select the sum you want to deposit and follow the instructions. You need to verify the transfer with your phone.

Pay by phone casino sites with a sportsbook

If you like your online gaming to be versatile, there are also plenty of pay by phone casino sites with a sportsbook. Many of these sites actually have both casino games and sports betting available to their customers.

If you want to see all of these options, we also have our own pay by mobile betting sites UK -page for you to browse a site selection with as much variety as possible.

Betting and casino sites both work exactly the same when it comes to making your deposit, so there are no extra steps you need to worry about when it comes to these sportsbooks.

Play on your mobile browser

The vast majority of mobile casinos run directly on the browser of your smartphone. No download necessary. Just pick a casino from our list, enter the site using your phone and set up an account. Easy as pie!

When you play at an online casino using your mobile phone, you have access to practically all the

features offered on the desktop version. On the newest sites created with the mobile-first approach, you may not notice any differences at all.

Some older sites may still feature games that work only on desktop. However, the support for Flash technology ended in December 2024, casinos have been removing these games.

Download the best real money casino apps

Although most mobile casinos run smoothly in your web browser, some companies have also launched a dedicated real money casino app. Although not strictly necessary, the best casino apps offer a smoother, more polished version than the browser version of the same site.

Here's how you get started with the casino mobile apps that pay real money:

Pick the best casino app for real money from our list. Enter the casino and register to take advantage of the exclusive Bojoko casino offers. Find the app links and select your operating system (Android or iOS). Follow the link to the store or a download page, download the app and get playing.

Casino apps for Android

Google Android is the most common smartphone operating system, so it's no surprise that there are plenty of mobile casinos for Android. Online Android casino on a mobile phone can run either directly on the browser or as an independent app.

At times, Google has been somewhat restrictive when it comes to casino apps on their store. This is why some casinos have their casino apps available on their own download page inside the casino. These apps need to be manually installed, but function the same as those downloaded from the Play Store.

In a real money casino Android app, you can sign up, deposit, play the games, withdraw and contact customer support without leaving the dedicated environment.

Casino apps for iOS (iPhone, iPad)

Just like the Android operating system, iOS is also widely supported in online casinos. Online casinos for iPad and iPhone abound, so as an Apple fan you'll have plenty of sites to choose from.

iPhone casino app works similarly to the Android version. Apart from a couple of old games, you have all the functions and slots of the desktop casino and the mobile browser version at your disposal. Take them on a spin and download a real money casino app for iPhone and iPad.

Why use a mobile deposit casino?

There are plenty of advantages to playing in a mobile deposit casino. Here's how a mobile phone deposit casino make your life easier:

No cards, payment accounts or banking sign-ups needed to make a deposit

Play casino games now, pay later

Instant and free deposits with one-tap payments

Simple and secure authentication system shields your money and data

Low daily limits encourage gambling in moderation

Mobile deposit casinos offer all the convenience you can wish for. This is a payment method designed for anyone, anywhere, to use any time. Many of the best online casinos have already adopted it.

Why not use a mobile deposit casino?

Now that you've heard the pros, it's time for cons. There are a few reasons why a mobile casino deposit by a UK phone bill might not be your thing:

No withdrawals. You'll have to use another banking option to get your winnings. Apple Pay is an exception to this rule.

You'll have to use another banking option to get your winnings. Apple Pay is an exception to this rule. Low limits. You can only deposit £10 per transaction or £30 per day.

You can only deposit £10 per transaction or £30 per day. Not universal. The smallest mobile carriers don't support pay by phone billing.

The downside with pay by phone banking methods is that you can't use them to withdraw your winnings. You'll have to use another banking method to withdraw your money. For this you need to confirm your method by making a deposit and wagering it.

The small deposit limits won't let you take advantage of all online casino bonuses. Many of the heftier bonus deals can't be unlocked with the minimum deposit of the casino.

Pay by phone casino (not Boku)

Even though Boku is one of the most popular pay by mobile methods many casino players prefer to use other ways to make their deposit. Luckily Boku is not the only possibility and there are plenty of other transfer methods to choose from. We have listed the most commonly used alternatives below.

Many players prefer pay by mobile phone gambling. Seeing no Boku among the payment options does not however necessarily mean it is impossible to make a mobile deposit. In many ways the alternatives, such as Fonix or Apple Pay, work in a similar way but there are also some differences.

The main reason player could choose a pay by phone casino (not Boku) is that depositing limits tend to be really low on these kinds of services. However, using different payment options make it possible to deposit more per day because limits are related to a specific method.

We have listed below some of the most popular not Boku casino sites for you to choose from:

Pay by phone mobile deposit options

On mobile pay casino sites, you can choose from a couple of UK mobile casino banking methods. Boku

The leading independent mobile payment provider for online casinos in the UK is Boku. In addition to Britain, it operates in several other countries in Europe, Asia, and the Americas. Depositing with Boku is easy. Choose a payment option, enter your mobile number and confirm your deposit amount. If you've already deposited using Boku in a pay by phone UK mobile casino, your number is already saved. You can transfer money and focus on enjoying your gaming experience!

Find mobile phone deposit casino supporting Boku by using our filters. You can also read more about Boku on our Boku casinos page.

Payforit

Many UK casinos support Payforit payment method. It's a direct mobile billing method created and adopted by all the major UK network operators.

So far, the list includes:

Vodafone

Virgin

EE

O2

Three

Just like using other mobile billing banking methods, depositing with Payforit is simple. Just make sure that:

you've got a mobile subscription from one of the carriers listed above, and the casino you choose supports Payforit

After that, you just follow the instructions on the screen.

Most UK casinos supporting mobile billing payment methods are using Payforit. However, it might be listed under a different name on the banking methods page. If you want to deposit with payforit, keep your eyes peeled for:

Pay by Phone

Pay by Mobile

Pay Via Phone

Charge to Mobile

Charge to Bill

Mobile Pay

You can find a comprehensive list of different Payforit casinos here on our separate article.

Apple Pay

Apple Pay is becoming the favourite payment method for iOS users all over the world. By these, we mean the lucky owners of the latest iPhones, iPads, and Apple Watches!

Apple Pay is convenient to use at store checkout points as it is a scannable digital wallet. Apple Pay does what credit and debit cards do but with improved technology. It pulls your card's data from the app to make instant, secure mobile deposits with your device. Use Apple Pay if you want to deposit and withdraw in online casinos with one sweeping tap.

Apple Pay scores some major points due to its unique feature. For all who want easy mobile payments, Apple Pay casinos are worth a look. You'll find a list of different Apple Pay casinos in the UK [here](#).

Traditional banking methods on mobile

The traditional casino banking methods are available for both desktop and mobile:

MuchBetter: Top up your MuchBetter casino wallet and confirm your deposits in your mobile app. **Grab mobile casino bonuses**

Mobile phone casino bonus sets you off on the right foot when you play on a smart device. Some mobile casino offers are exclusively meant for users of the mobile version, although most can be accessed by anyone.

Below, we have gathered different mobile casino bonus options, sorted by bonus type.

You can take a look at the bonus pages to learn more about different kinds of bonuses that are available. As a basic rule, if a casino offers a non-specified bonus, it is available for everyone.

That being said, there are certain bonuses that are only for mobile casino customers.

Mobile-tailored casino bonuses

Casinos encourage mobile gaming whenever possible. After all, an increasing number of players prefer gaming on the go.

Some operators have created mobile-specific bonuses to players who prefer gaming on the move. This means that there are some exclusive bonuses not available on desktop.

Mobile-only bonuses are often small, like 10 bonus spins or a few pounds of bonus money

Bonuses available only on mobile used to be more numerous. However, in the past few years, there has been a clear decline. We keep our ear to the ground and add all such bonuses as soon as they appear.

FAQ

Which mobile billing casino banking methods are available in the UK? The biggest players are Boku casinos and Payforit. Boku is an independent payments provider. Payforit is the payment solution created in cooperation with the major UK mobile carriers. Even though casinos are using Payforit, they may call it something else, e.g. Pay by Phone, Mobile Pay etc. The Nordic mobile billing services Zimpler and Siru Mobile are not yet available in the UK. Fonix is slowly making its way to the casino market.

Can I withdraw using Boku or Payforit? No. You'll need to confirm another banking method for withdrawals. This usually means making a deposit and wagering it at least once. You'll also need to confirm a banking method by deposit and wagering when withdrawing winnings from a no deposit bonus.

Are there any fees for pay by mobile? No. The payment providers don't charge you any fees.

However, check that the casino doesn't charge any deposit fees for mobile billing. You can usually find this information on the banking page of the online casino. You may need to log in to

see the banking methods available and the fees charged.

Is it safe to deposit by phone? Yes. Payforit is backed by the mobile carriers themselves and Boku too has a trusted track record. The only info you need to give is your phone number. Most other banking methods require much more detailed personal info.

Can I get bonuses with mobile deposits? Yes. However, the minimum deposit accepted by the casino may be smaller than the minimum deposit for the bonus. As long as your deposit is large enough to qualify, you can enjoy all the bonuses the casino has to offer.

Are there deposit limits for mobile billing? Yes. These are set by mobile billing service providers. The smallest you can get at minimum deposit casinos is usually £5, the maximum £10. The daily maximum is £30 by default.

What are pay by phone slots? There's no such thing. There are no separate slots for pay by mobile and other banking methods. When you deposit with your phone, you can play any game you like, including online slots, table games or enjoy a online live casino.
